

1. What did we learn this week?

We spent the week learning about classes, what they're used for, how to also throw exceptions when input or certain issues come up in our code. We also learn about operator overloading, and being able to know what attributes are and what their benefits are.

2. Rate your understanding of the topics this week. (1. Did not understand at all, ... 5. Fully understand the topic)

5

3. Are there any questions related to this week's topics? We will address the questions either at the beginning of a lab or through a post.

No questions.
