

1. What did we learn this week?

We learned about sets, lists, and dictionaries. Primarily looking at developing functions, and being able to use functions, and their default assignments. And then learning what global vars are, and then being able to understand the different built-in data types, they exist

2. Rate your understanding of the topics this week. (1. Did not understand at all, ... 5. Fully understand the topic)

5.

3. Are there any questions related to this week's topics? We will address the questions either at the beginning of a lab or through a post.

No questions.
